About

Petrocap staff are highly qualified have hands on experience in multinational firms with solid academic background reflects in our services and training program that tailored by academics and professionals in various industries.

This unique blend of Petrocap's professionals is our grantee pass for customer satisfactions to facilitate:

- Engineering Consulting,
- Technical Inspection, calibration, Testing Consulting,
- Environmental, Health Safety Consulting,
- Management and Human resources consulting,
- Learning and Development Consulting,

The Petrocap helps its clients successfully execute technically demanding oil & gas industry and infrastructure projects. With a highly qualified employees at more than seven locations across many continents, This enables Petrocap to interact with clients and project parties on site. At the same time, close cooperation within the network of the Petrocap makes it possible to draw on international experts and make use of their special experience, processes, and tools.

In Talent we have hands on experience in IQMS (Integrated Quality Management System) especially for the oil and gas sector through supporting our clients in preparation of IQMS (ISO 9001, ISO 14001 and ISO 45001) , Gap analysis also System management Maintenance for any unforeseen problems.

PROJECTS

12 - TECHNICAL SERVICES

78- EXPERTS

390 - TRAINING PROGRAM

18 - VENUES

CLIENTS

- Oil, Gas, Petrochemicals, Refinery,
- Power Generation, Cement ,construction and Fertilizers Companies .
- The Government and private sector companies .
- Industrial and Commercial Companies .
- Non-profit organizations.
- Individuals

The VISION

Be one of the leaders in the engineering consulting & training services business and provide global, flexible, speedy, low cost and innovative technology solutions and best in class quality services to the industry"

Mission

"Our Mission is to deliver engineering consulting & training services which are defect free where our clients derive the best measurable value by cost avoidance, design optimization & construction savings. We will strive to implement the most innovative engineering concepts in practice. We would like to be a single source engineering provider bringing to our customers the knowledge base and technological edge at lower costs. We will remain dynamic in responding to our customer requirements and ensure their satisfaction at all times."

REGISTRATION

Petrocap is registered limited company in England and Wales under No. 11124952

The OBJECTIVE

To increase the value added to our services, through delivering a high quality, new innovative business ideas at reasonable pricing scheme.

- To build a strong long term strategic partnership with our clients.
- To have a flexible pricing policy to meet the client's different background (Corporate, Public) with no compromising on the level of quality of service delivered.
- To tailor the services delivered to satisfy the clients needs and wants , also scanning the business marketplace to discovering and creating new business opportunities.

The ACHIEVEMENT

PETROCAP

AT PETROCAP, WE BELIEVE IN PROVIDING THE BEST POSSIBLE SERVICE TO OUR CLIENTS. OUR ISO CERTIFICATIONS ARE A TESTAMENT TO THIS COMMITMENT, OFFERING YOU THE ASSURANCE THAT YOU ARE PARTNERING WITH A COMPANY THAT PRIORITIZES QUALITY, SAFETY, AND EXCELLENCE.

PETROCAP IS PROUD TO ANNOUNCE THAT WE HAVE ACHIEVED SEVERAL PRESTIGIOUS ISO CERTIFICATIONS, DEMONSTRATING OUR COMMITMENT TO QUALITY, SAFETY, AND EXCELLENCE IN OUR SERVICES. THESE CERTIFICATIONS VALIDATE OUR DEDICATION TO PROVIDING TOP-TIER TRAINING AND CONSULTING SOLUTIONS TO OUR CLIENTS ACROSS THE OIL AND GAS INDUSTRY.

WHAT THESE CERTIFICATIONS MEAN FOR OUR CLIENTS:

- **QUALITY ASSURANCE:** OUR COMMITMENT TO ISO STANDARDS MEANS THAT WE MAINTAIN STRICT QUALITY CONTROL ACROSS ALL OUR SERVICES, ENSURING CONSISTENT AND RELIABLE RESULTS.
- **EXPERTISE AND COMPETENCE:** THE ISO 17024 CERTIFICATION CONFIRMS THAT OUR TEAM CONSISTS OF HIGHLY SKILLED AND CERTIFIED PROFESSIONALS WHO MEET INTERNATIONAL STANDARDS.
- **CLIENT-CENTERED APPROACH:** OUR ISO 21001 AND ISO 29992 CERTIFICATIONS UNDERLINE OUR FOCUS ON DELIVERING CLIENT-CENTRIC SERVICES THAT MEET OR EXCEED EXPECTATIONS.
- **INTEGRITY AND TRANSPARENCY:** THESE CERTIFICATIONS REFLECT OUR DEDICATION TO ETHICAL PRACTICES, TRANSPARENCY, AND CONTINUOUS IMPROVEMENT.
- **ISO 10667:** ASSESSMENT SERVICE DELIVERY: WITH THIS CERTIFICATION, OUR CLIENTS CAN TRUST THAT OUR ASSESSMENT SERVICES ARE CONDUCTED WITH FAIRNESS, CONSISTENCY, AND ACCURACY, ADHERING TO INTERNATIONAL GUIDELINES.
- **ISO 17024:** CERTIFICATION OF PERSONS: THIS CERTIFICATION SIGNIFIES THAT OUR PERSONNEL CERTIFICATION PROCESSES MEET RIGOROUS STANDARDS FOR QUALITY AND RELIABILITY, PROVIDING ASSURANCE TO CLIENTS ABOUT THE COMPETENCE AND INTEGRITY OF CERTIFIED PROFESSIONALS.
- **ISO 29992:** LEARNING SERVICES FOR NON-FORMAL EDUCATION AND TRAINING: THIS CERTIFICATION HIGHLIGHTS OUR FOCUS ON PROVIDING HIGH-QUALITY LEARNING SERVICES THAT MEET SPECIFIC NEEDS AND LEAD TO MEASURABLE OUTCOMES, ENSURING OUR CLIENTS RECEIVE VALUABLE AND APPLICABLE TRAINING.
- **ISO 21001:** EDUCATIONAL ORGANIZATION MANAGEMENT SYSTEMS: THIS CERTIFICATION ENSURES THAT OUR TRAINING PROGRAMS AND EDUCATIONAL SERVICES ARE MANAGED TO THE HIGHEST STANDARDS. IT CONFIRMS OUR COMMITMENT TO DELIVERING CONSISTENT, EFFECTIVE, AND CUSTOMER-FOCUSED EDUCATIONAL EXPERIENCES.

HR & MANAGEMENT SERVICES

A- Competency

Management Services:

Creating a competency framework is an effective method to assess, maintain, and monitor the knowledge, skills, and attributes of people in your organization. The framework allows you to measure current competency levels to make sure your staff members have the expertise needed to add value to the business. It also helps managers make informed decisions about talent recruitment, retention, and succession strategies. And, by identifying the specific behaviors and skills needed for each role, it enables you to budget and plan for the training and development your company really needs.

the right person

In the right place

With the right skills

Doing the right thing

at the right time

Every time

B- Learning & Development Services

Organisations would need to have a strong Learning & Development structure to support the continuous development of their employees. The establishment of Learning Strategy will determine the necessary development plan to be in place.

Development needs should be verified by Training Needs Analysis, and it would lead to a roll-out of a series of Training and Development Programs to develop the level of expertise of employees, both functionally and behaviorally. Training Programs Evaluation would then need to be in place to determine the effectiveness of the development plan. It is also imperative to build in a culture of Competency Awareness as part of development for all employees so that they are in line with the overall Organization's aspirations and culture.

HR &

MANAGEMENT SERVICES

C- Leadership Development Services

Leadership development expands the capacity of individuals to perform in leadership roles within organizations. Leadership roles are those that facilitate execution of a company's strategy through building alignment, winning mindshare and growing the capabilities of others.

Common seven design of organization Leadership Development :

ISO CERTIFICATE SERVICES

and More and more

Why Choose Us?

Obtaining an ISO certification is crucial for enhancing the efficiency and quality of your company's operations. It helps build customer trust and opens up new business opportunities. If you are considering ISO certification for your company, here are the reasons why you should choose our services

1. Experience and Professionalism
2. Customized Services
3. Comprehensive and Ongoing Support
4. Efficiency and Time-Saving
5. Competitive Advantage
6. Competitive Pricing
7. Commitment to Quality

" We are dedicated to delivering the best services that comply with the highest quality standards. We strive to achieve customer satisfaction by providing tailored solutions that meet their expectations and help them reach their goals"

HANDS-ON TRAINING ACADMY

training@petrocap.co.uk

HANDS-ON CRANE

The aim of this course is to assist crane operators , riggers ,banksmen ,supervisors ,Foremen and Safety people ad personnel involved in Lifting operations in workplace to improve their expertise .

Petrocap Hands-on Training helps ensure your employees gain the knowledge and skills to work safely and confidently, using the equipment specific to your material handling tasks.

petrocap offer many hands-on Training Programs and more:

- Mobile Crane Operator
- Overhead Crane & Hoist Operator
- Qualified Signal Person
- Qualified Rigger – Level 1
- Qualified Rigger – Level 2
- Master Rigger
- Rigging Gear & Sling Inspector
- Mobile Crane Inspector
- Overhead Crane & Hoist Inspector
- Pedestal Crane Operator
- Pedestal Crane Inspector
- Aerial Lift Operator & Inspector
- Tower Crane Operator
- Offshore Crane & Rigging
- other training available up on request

HANDS-ON LIFT TRUCK

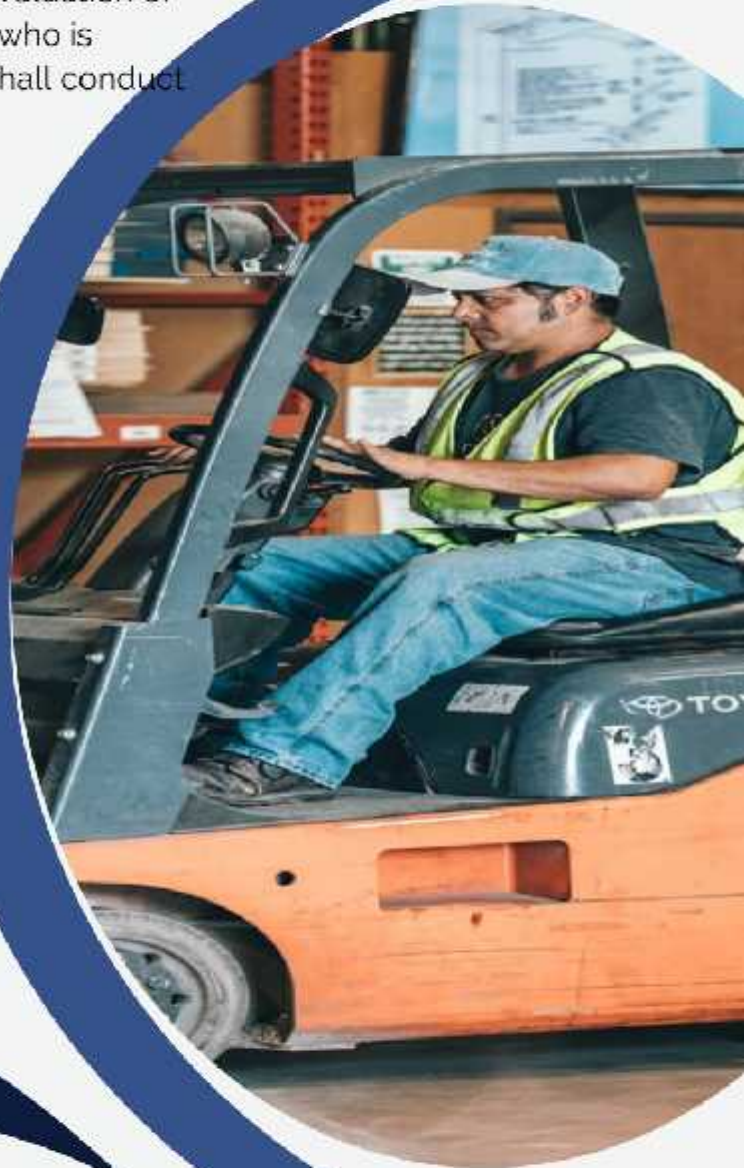

A lift truck is a very powerful and useful tool, but in untrained hands, it can do more harms.

All personnel who operate (lift truck) forklifts, scissor lifts, boom lifts, powered hand trucks, and tractors are required to have the following training.

Training shall consist of a combination of formal instruction (e.g., lecture, discussion, interactive computer learning, video tape, written material), practical training (demonstrations performed by the trainer and practical exercises performed by the trainee), and evaluation of the operator's performance in the workplace. Someone who is authorized, qualified and determined to be competent shall conduct all training.

Our Hands-on Lift truck training will give your personnel a good method to maintain the safe practices when working with lift trucks and ensure of operator competency in the workplace. When you join petrocap hands-on lift truck training you will gain a flexible and responsive and professional team Petrocap offer many lift trucks hands-on training program and more:

- Counterbalance Forklift truck Safe Operation.
- High level order picker truck Safe Operation.
- Reach Forklift Truck Safe Operation.
- Low Lift Pallet Truck Safe Operation.
- Very Narrow Aisle Stacking Truck - Operator up Safe Operation.
- Pivot Steer Lift Truck Safe Operation.
- Rough Terrain Variable Reach and Telescopic Trucks Safe Operation.
- Pedestrian Lift Truck, Straddle Pallet & Rider Pallet Stackers Safe Operation.
- other training available up on request

HANDS-ON WORKING AT HEIGHT

Employers on construction projects to ensure workers are adequately trained on the use of a fall protection system if they may use the system on the job. These workers must be given adequate oral and written instructions by a competent person.

Petrocap hands-on working at heights training contains more advanced information on fall protection systems and includes hands-on demonstration of equipment and procedures. This also covers barriers and other fixed equipment fall PPE (travel restraint, fall restricting, fall arrest systems), anchor points, work access equipment and platform, rescue planning.

Petrocap offer many working at heights hands-on training program and more:

- Fall protection
- Rescue from heights
- Rooftop safe practices
- Telecom Climber safe practices
- Wind turbine climber safe practices
- Rail (climb the structure) safe practices
- Rope access safe practices
- Ladder safe practices
- Mobile Elevating Work Platforms (MEWPs) safe practices
- Basic Scaffolding Inspection
- Advanced Scaffolding Inspection
- Safety Harness safe practices
- Managing Scaffold Operations Safely
- Low level access
- other training available up on request

PETROCAP TECHNICAL ACADEMY

HANDS-ON DEFENSIVE DRIVING

Road traffic incidents can be expensive and have effects on businesses and communities.

- Petrocap Hands-on Road Safety training occurs behind the wheel, as drivers are challenged to put into practice what they've seen in the classroom. This is particularly important when employees will be driving trucks that aren't large enough to require a commercial driver's license but larger than the typical light truck or van. Delivery trucks require skilled use of mirrors and a well-developed depth perception for parking, backing, and driving in traffic. Training for drivers of this type of specialty vehicle should be done behind the wheel whenever possible.
- During the training process we will focus not only on developing your skill levels required to pass a test but we will also encourage positive attitudes and behaviours that will contribute towards safe and enjoyable life-long driving.
- Petrocap Hands-on Road Safety Training :
- Driver Training Class & Behind-the-Wheel Training
- Driver Training Class & Behind-the-Wheel Training with Road Test
- Minibus Driver Training
- Winter Driving Defensive Driving Course
- Vans and Light Commercial Driver Training
- Large Goods Vehicles Driver Training
- PCV & Minibus Driver Training
- Vehicle Familiarisation Driver Training Course
- Driver Assessor Training Course
- Skid Control Driver Training Course
- Trailer Towing Driver Training Course
- other training available up on request

HANDS-ON MANUAL HANDLING / ERGONOMICS

Hands-on Manual Handling training course help prevent back injuries and to assist employers to comply with Manual Handling Operations Regulations (1992) (amended 2002), which requires all staff involved in the handling and movement of loads (inanimate objects) to be trained in accordance with the current best practice.

Petrocap Hands-on Manual Handling training includes pushing, pulling, lifting, lowering and carrying which can be hazardous if correct procedures are not followed, and can result in back injury.

Hands-on Manual Handling Training:

- Manual Handling safe practices
- Moving and Handling of Loads safe practices
- Moving and Handling of People safe practices
- Slips , Trip and fall preventive program
- ERGONOMIC Program in Workshop
- ERGONOMIC Program in Office
- other training available up on request

HANDS-ON FIRST AID

- Hands-On First Aid offers comprehensive training designed to equip individuals and organizations with the skills and knowledge needed to respond effectively to medical emergencies. Our training includes:
 - First Aid at Work (FAW)
 - Emergency First Aid at Work (EFAW)
 - Paediatric First Aid
 - Automated External Defibrillator (AED) Training
 - Basic Life Support (BLS)
 - First Aid for Mental Health
 - Outdoor First Aid
 - Sports First Aid
 - Anaphylaxis Awareness and Management
 - First Aid Refresher Course

HANDS-ON SCAFFOLDING

hands-on scaffolding training! Designed to meet industry standards and regulations, our courses offer practical, immersive learning experiences. From scaffold inspection to tower erection, our training covers a range of essential skills. Perfect for individuals and companies alike, our courses ensure compliance and safety in every aspect of scaffold work. Whether you're new to the industry or looking to enhance your skills, our hands-on training is the ideal choice. Join us and elevate your scaffolding expertise today!

- Scaffold Inspection Training
- Scaffold Tower Training
- Mobile Scaffold Training
- Working at Height Training
- Scaffold Erector Training
- Scaffold Safety Awareness Training
- Scaffold Tower Training
- Scaffold Supervisor Training
- Basic Scaffold Awareness Training
- Scaffold Rescue Training
- other training as up on request

HANDS-ON CONFINED SPACE ENTRY

our training emphasizes practical, hands-on learning to ensure you're prepared for real-world scenarios. From hazard identification to emergency response protocols, our comprehensive curriculum covers all aspects of confined space entry. Whether you're new to the field or seeking to refresh your skills, our training provides the expertise you need to work confidently and securely in confined spaces. Join us and unlock the door to safe and successful confined space entry! other training as up on request

- Confined Space Entry and Rescue
- Confined Space Awareness Training
- Confined Space Supervisor Training
- Confined Space Entry for Construction Workers
- Confined Space Entry for Industrial Workers
- Confined Space Entry for Utilities Personnel
- Confined Space Entry for Emergency Responders
- Confined Space Entry for Maintenance Personnel
- Confined Space Entry for Tank Cleaners
- Confined Space Entry for Welders
- other training up on request

PETROCAP TECHNICAL ACADEMY

HANDS-ON YARD MARSHAL

Our hands-on yard marshal training equips participants with the essential skills and knowledge required to effectively manage and coordinate yard operations. This comprehensive training program emphasizes practical, hands-on learning experiences to ensure participants are proficient in performing their duties safely and efficiently.

Hands-On Yard Marshal training covers following industries:

- Freight Forwarding and Customs Clearance
 - Warehousing and Contract Logistics
 - Goods Transportation and Distribution
 - People Transportation.
 - Economic Services Parking
 - Equipment/Machine maintenance services Parking
-
- Fleet Management: Your Roles and Responsibilities
 - Vehicle Acquisition
 - Fleet Risk Management
 - other training up on request

HANDS-ON RIG ELECTRICIAN

Hands-On Rig electrician training programs are considered to be a very specialized type of electrical training and may be offered as an advanced course, certification training program or as a separate degree or diploma program. Most rig electrician training programs include both theoretical and practical components and require students to complete hands-on tasks so that they can demonstrate competence in their field. Students who successfully complete a rig electrician training program typically earn a certificate of completion or a diploma. Some of the courses that are often included in a rig electrician training program include:

- Power management of different types of generators
- Elmagco brake systems
- Drive systems
- Instrumentation interface of various systems
- Hazardous-area equipment selection and specifications
- Generic maintenance procedures for different rig equipment
- Installation and upgrades of various types of equipment
- Fault analysis
- Troubleshooting techniques
- other training up on request

HANDS-ON

RIG SAFETY INSPECTOR

Hands-On Rig electrician training programs are considered to be a very specialized type of electrical training and may be offered as an advanced course, certification training program or as a separate degree or diploma program. Most rig electrician training programs include both theoretical and practical components and require students to complete hands-on tasks so that they can demonstrate competence in their field. Students who successfully complete a rig electrician training program typically earn a certificate of completion or a diploma. Some of the courses that are often included in a rig electrician training program include:

- Power management of different types of generators
- Elmagco brake systems
- Drive systems
- Instrumentation interface of various systems
- Hazardous-area equipment selection and specifications
- Generic maintenance procedures for different rig equipment
- Installation and upgrades of various types of equipment
- Fault analysis
- Troubleshooting techniques
- other training up on request

HANDS-ON RIG SAFETY INSPECTOR

Our hands-on rig safety inspector training provides participants with the knowledge and skills needed to ensure safety and compliance on drilling rigs. This comprehensive program focuses on practical training and real-world scenarios to equip inspectors with the expertise to identify hazards, enforce regulations, and mitigate risks effectively.

Commonly Offered Related Training in :

- Offshore Safety Training (BOSIET)
- Working at Heights Training
- Confined Space Entry and Rescue Training
- Hazardous Materials Handling Training
- Fire Safety and Emergency Response Training
- Environmental Management and Pollution Control Training
- Risk Assessment and Management Training
- Equipment Inspection and Maintenance Training
- Health and Safety Management Systems Training
- Incident Investigation and Reporting Training
- other training up on request

HANDS-ON LAND RIG EQUIPMENT INSPECTOR

hands-on land rig equipment inspector to build and enhance the candidates' knowledge of rig equipment and maintenance through compliance with industry standards, regulatory requirements and safe working practices. Candidates will learn to apply the relevant standards and requirements to verify rig equipment condition, improve safety and potentially reduce accidents.

- Land Rig Inspection and Maintenance Training
- API RP 4G Rig Inspection Training
- Land Rig Safety and Compliance Training
- NACE Coating Inspection for Land Rigs
- Advanced Non-Destructive Testing (NDT) for Land Rig Components
- Rig Equipment Inspection and Certification Training
- Introduction to Land Rig Structural Integrity Assessment
- Health and Safety Management for Land Rig Operations
- Drilling Equipment Inspection and Maintenance Training
- Rigging and Lifting Operations Safety Training
- other training up on request

HANDS-ON RIG INSTRUMENTATION INSPECTOR

Our hands-on Rig Instrumentation Inspector training program provides participants with comprehensive knowledge and practical skills essential for inspecting and maintaining instrumentation systems. Through a blend of theoretical learning and practical exercises, participants will gain the expertise needed to ensure the accurate and reliable operation of instrumentation equipment in various industrial settings.

- Commonly Offered Training :
- Introduction to Instrumentation and Control Systems
- Calibration Techniques for Instrumentation Inspectors
- Advanced Instrumentation Troubleshooting and Maintenance
- Instrumentation Safety and Compliance Training
- Pressure Measurement and Control Systems
- Temperature Measurement and Control Systems
- Flow Measurement and Control Systems
- Control Valve Inspection and Maintenance
- PLC Programming and Troubleshooting for Instrumentation Inspectors
- Hazardous Area Classification and Instrumentation Standards
- other training up on request

HANDS-ON FIRE MARSHAL

hands-on Fire Marshal training equips participants with the essential knowledge and skills to effectively respond to fire emergencies and ensure the safety of individuals in the workplace or public spaces. Through practical exercises and theoretical learning, participants will learn fire prevention strategies, evacuation procedures, and how to operate fire extinguishing equipment confidently.

Commonly Offered Training :

- Fire Safety Awareness Training
- Fire Warden/Fire Marshal Training
- Fire Risk Assessment and Management
- Practical Fire Extinguisher Training
- Emergency Evacuation Procedures
- Fire Safety for Construction Sites
- Fire Safety for Healthcare Facilities
- Fire Safety for Schools and Educational Institutions
- Fire Safety for Retail and Hospitality Industry
- Fire Safety for Office Buildings and Commercial Spaces
- other training up on request

HANDS-ON LOGISTICS COORDINATOR

hands-on Logistic Coordinator training provides participants with the necessary skills and knowledge to effectively manage and coordinate logistical operations. From supply chain management to inventory control and transportation logistics, this training equips individuals with practical techniques and strategies to optimize logistical processes and ensure efficient delivery of goods and services.

Commonly Offered Training :

- Supply Chain Management Training
- Inventory Management and Control
- Warehouse Operations and Management
- Transport and Distribution Logistics
- Procurement and Vendor Management
- International Trade and Customs Compliance
- Freight Forwarding and Shipping Procedures
- Logistics Technology and Systems
- Risk Management in Logistics
- Lean Logistics and Continuous Improvement
- other training up on request
